

The Supreme Being: The Evolving Synthesis of All Everything in Time and Space

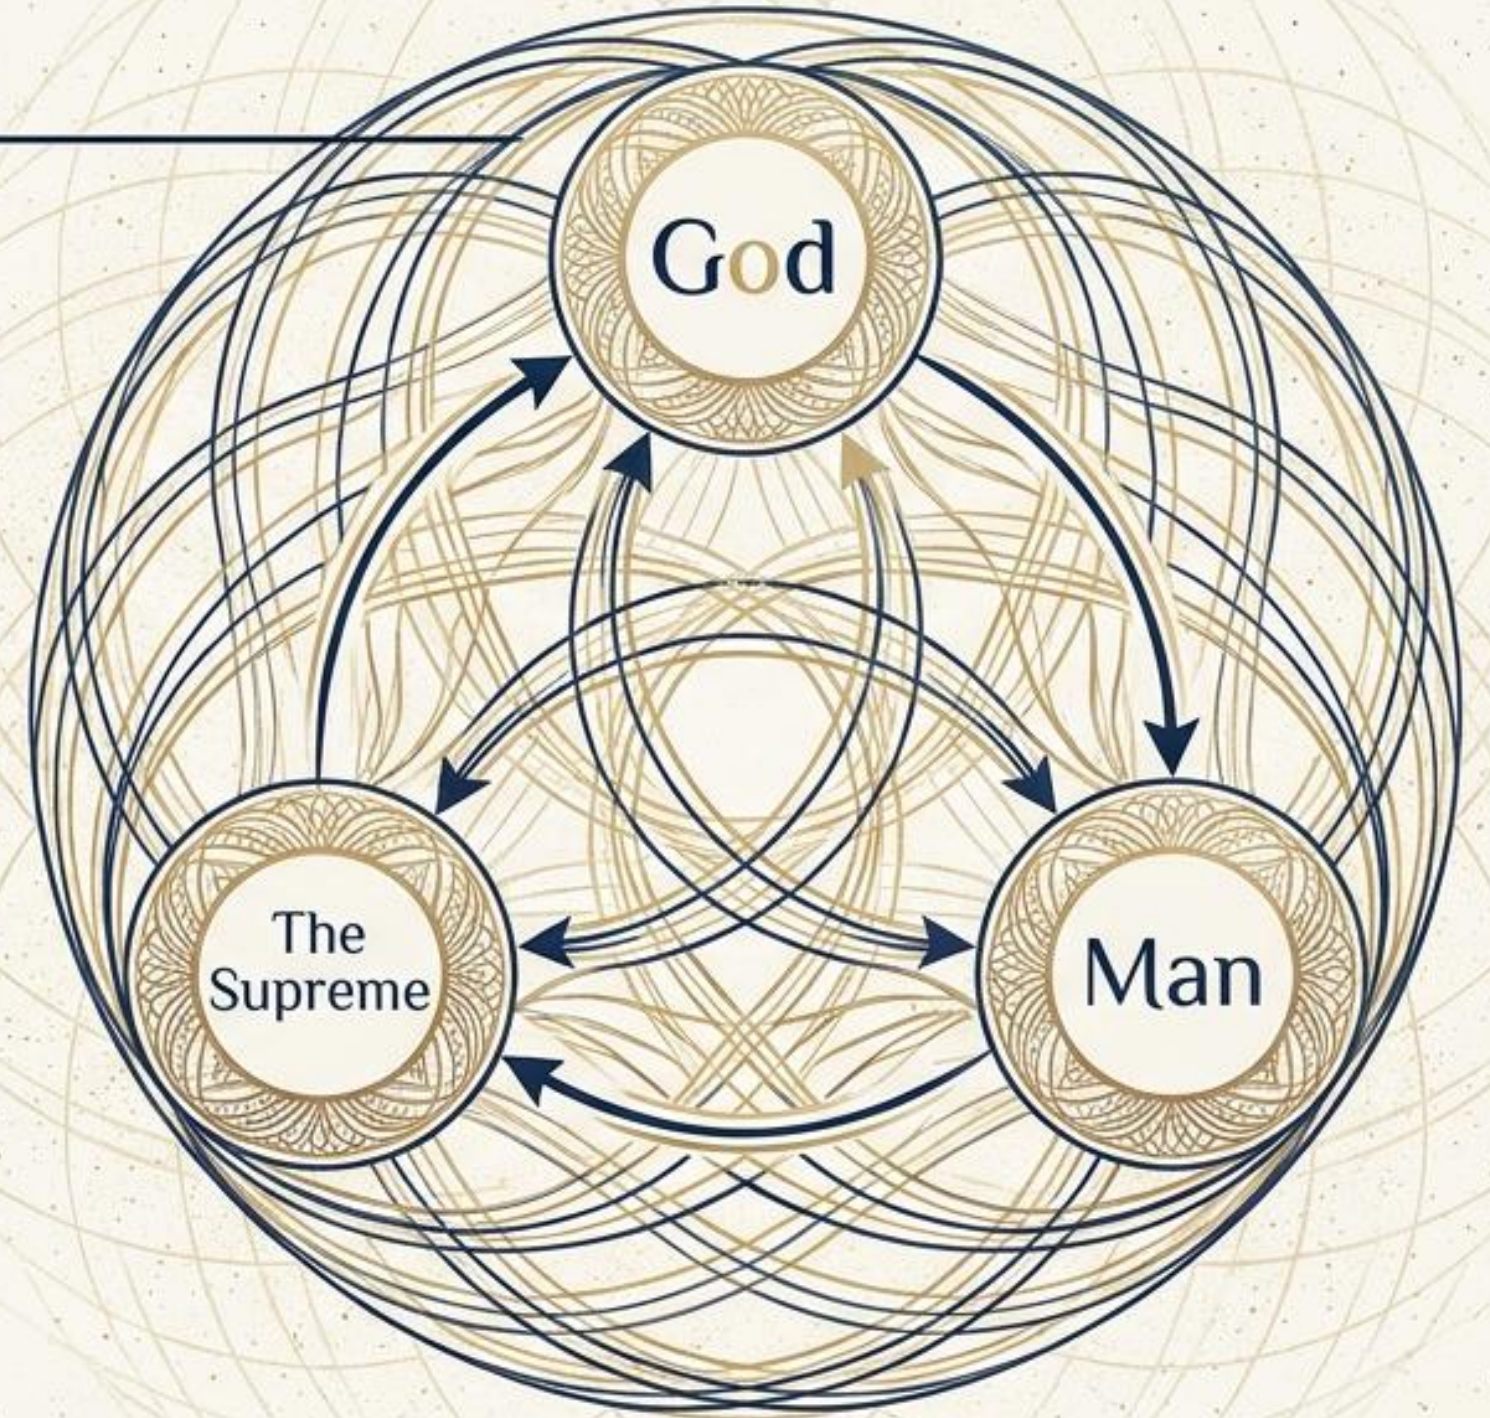

*“Properly speaking, God does not make:
He makes things make themselves.”*

— Pierre Teilhard de Chardin

The Core Paradox of The Supreme

We are not merely subjects of Deity; we are its co-creators. The Supreme Being is an evolutionary, experiential Deity forged by the accumulated meanings, values, and experiences of finite creation.

“Don’t you understand... we’re creating a Deity by our everyday decisions and actions.”

— John Bullock, Urantia Scholar

The Unification of Three Phases of Deity Reality

Phase 1: God the Supreme (The Spirit Nucleus)

Location:

Havona (The Central Universe).

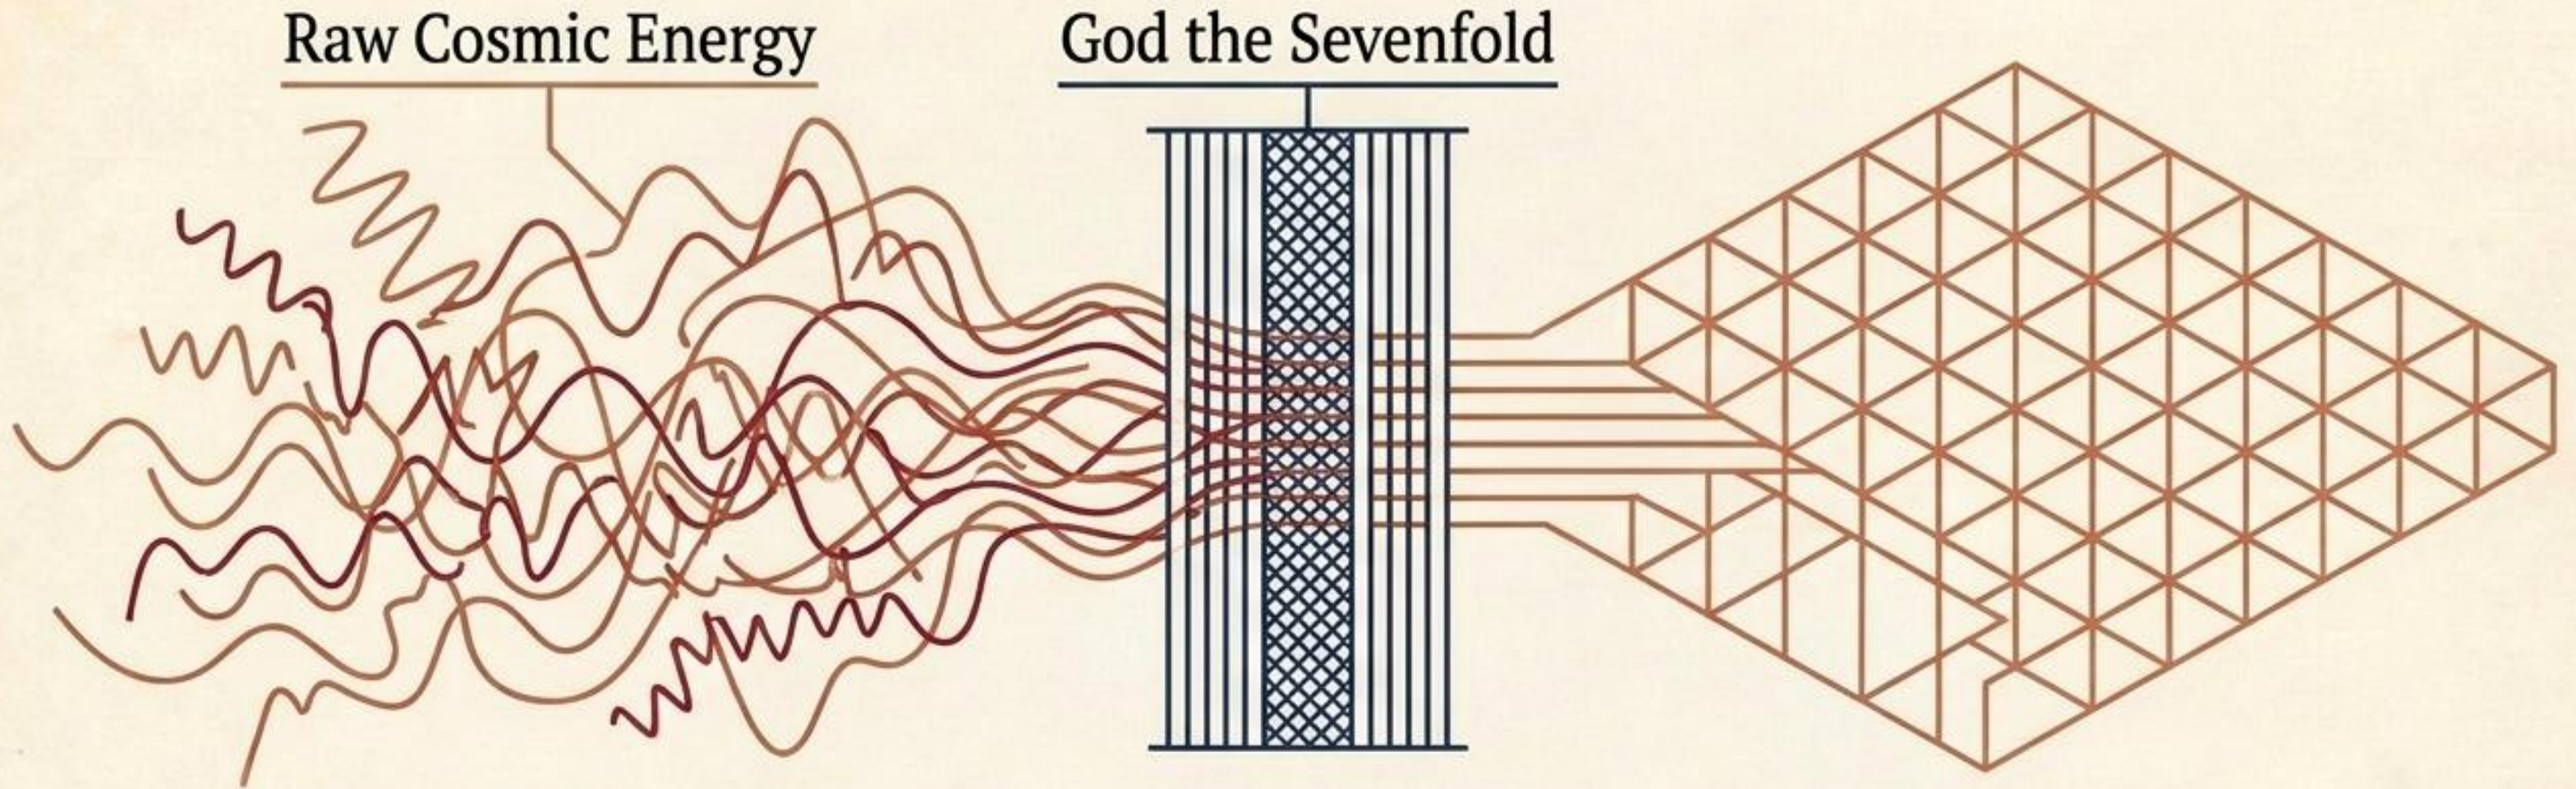

Function:

Operates purely on spiritual levels. Existed before the creation of the superuniverses.

Mechanism:

Acts as a personal channel for ascending creatures. He affectionately bestows enhancements of intellectual grasp and spiritual insight up to our finite limits, bridging the gap between human capacity and the absolute.

Phase 2: The Almighty Supreme (Power Unification)

Location:
The Grand Universe.

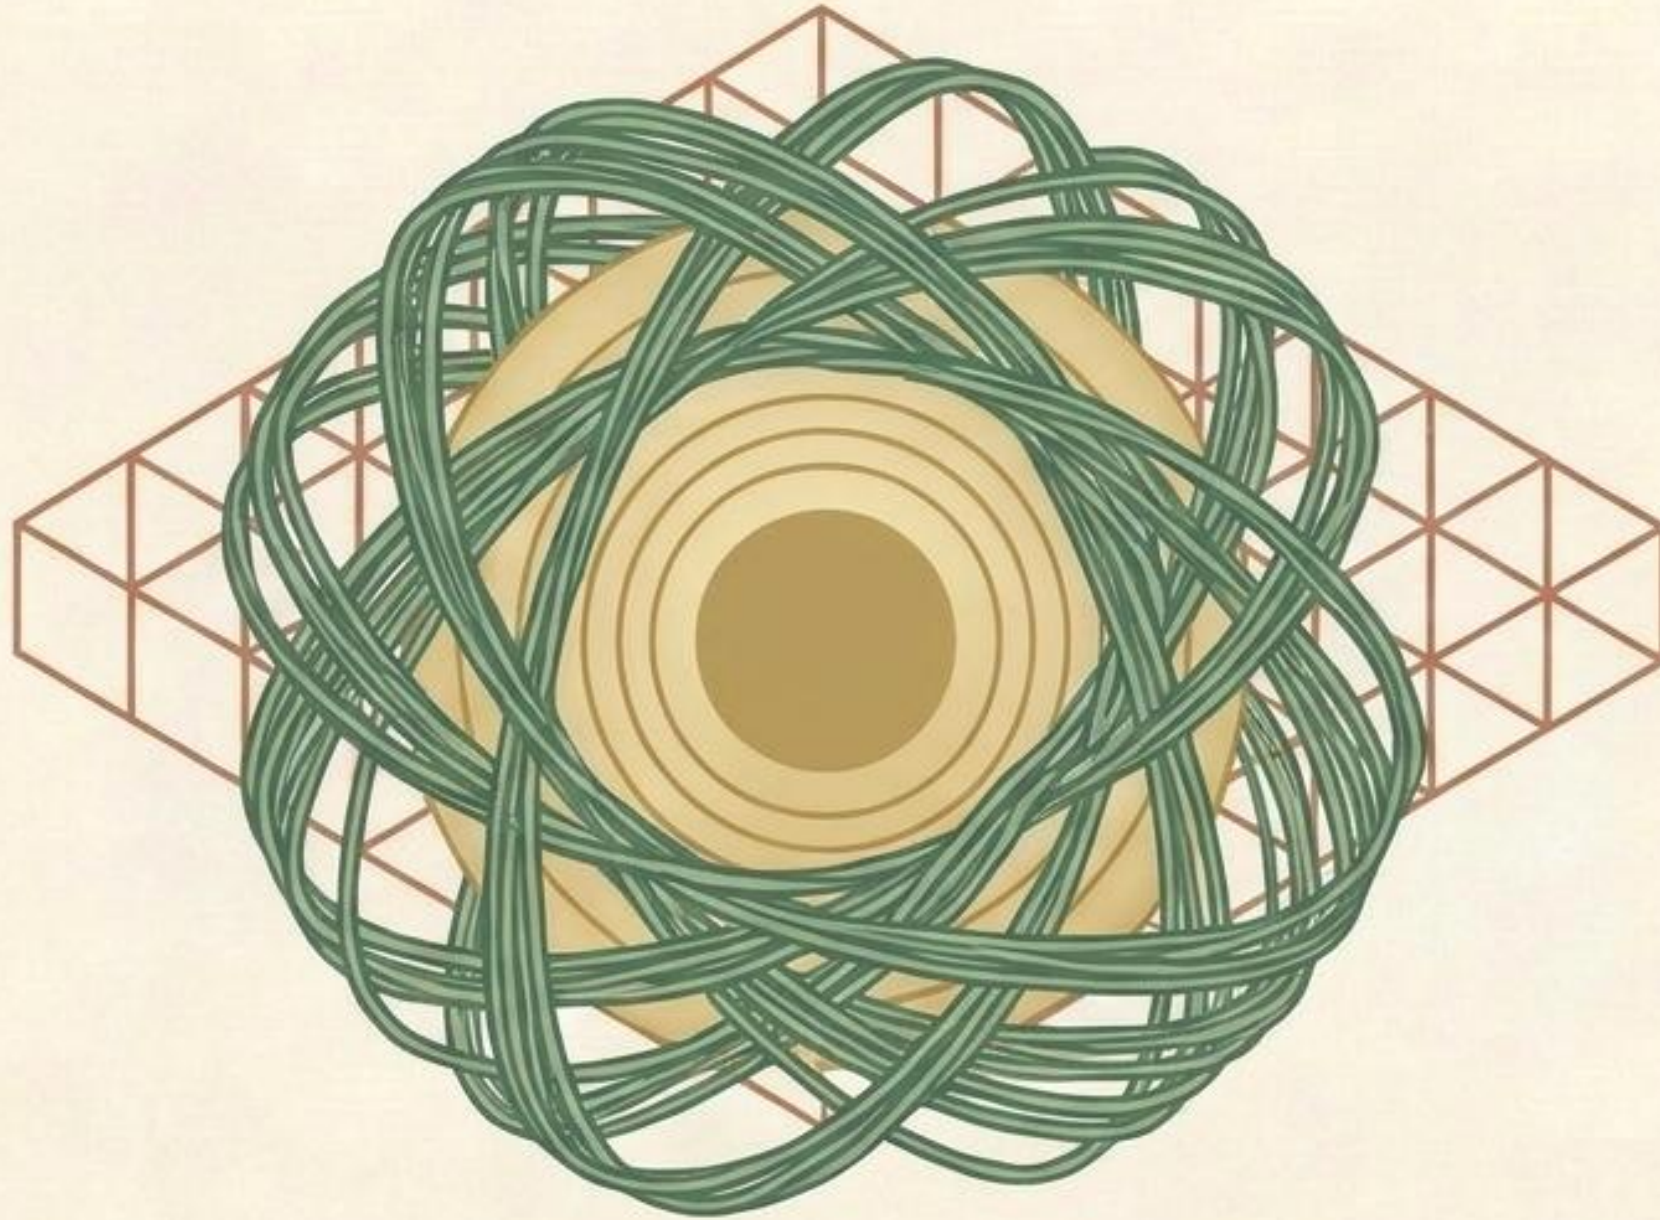

Function:
The non-personal, evolutionary power actualizing through the stabilization of the superuniverses.

Mechanism:
The Almighty Supreme draws his very being from the acts of God the Sevenfold (Creator Sons, Master Spirits, etc.). By converting the untamed energies of space into a balanced, organic whole, they set the stage for our participation.

Phase 3: Supreme Mind (The Cosmic Glue)

Origin:

Factualizing in Majeston;
the individual
contribution of the Third
Source and Center.

Function:

The finite domains of
energy and spirit are
literally held together by
these mind presences.

Mechanism:

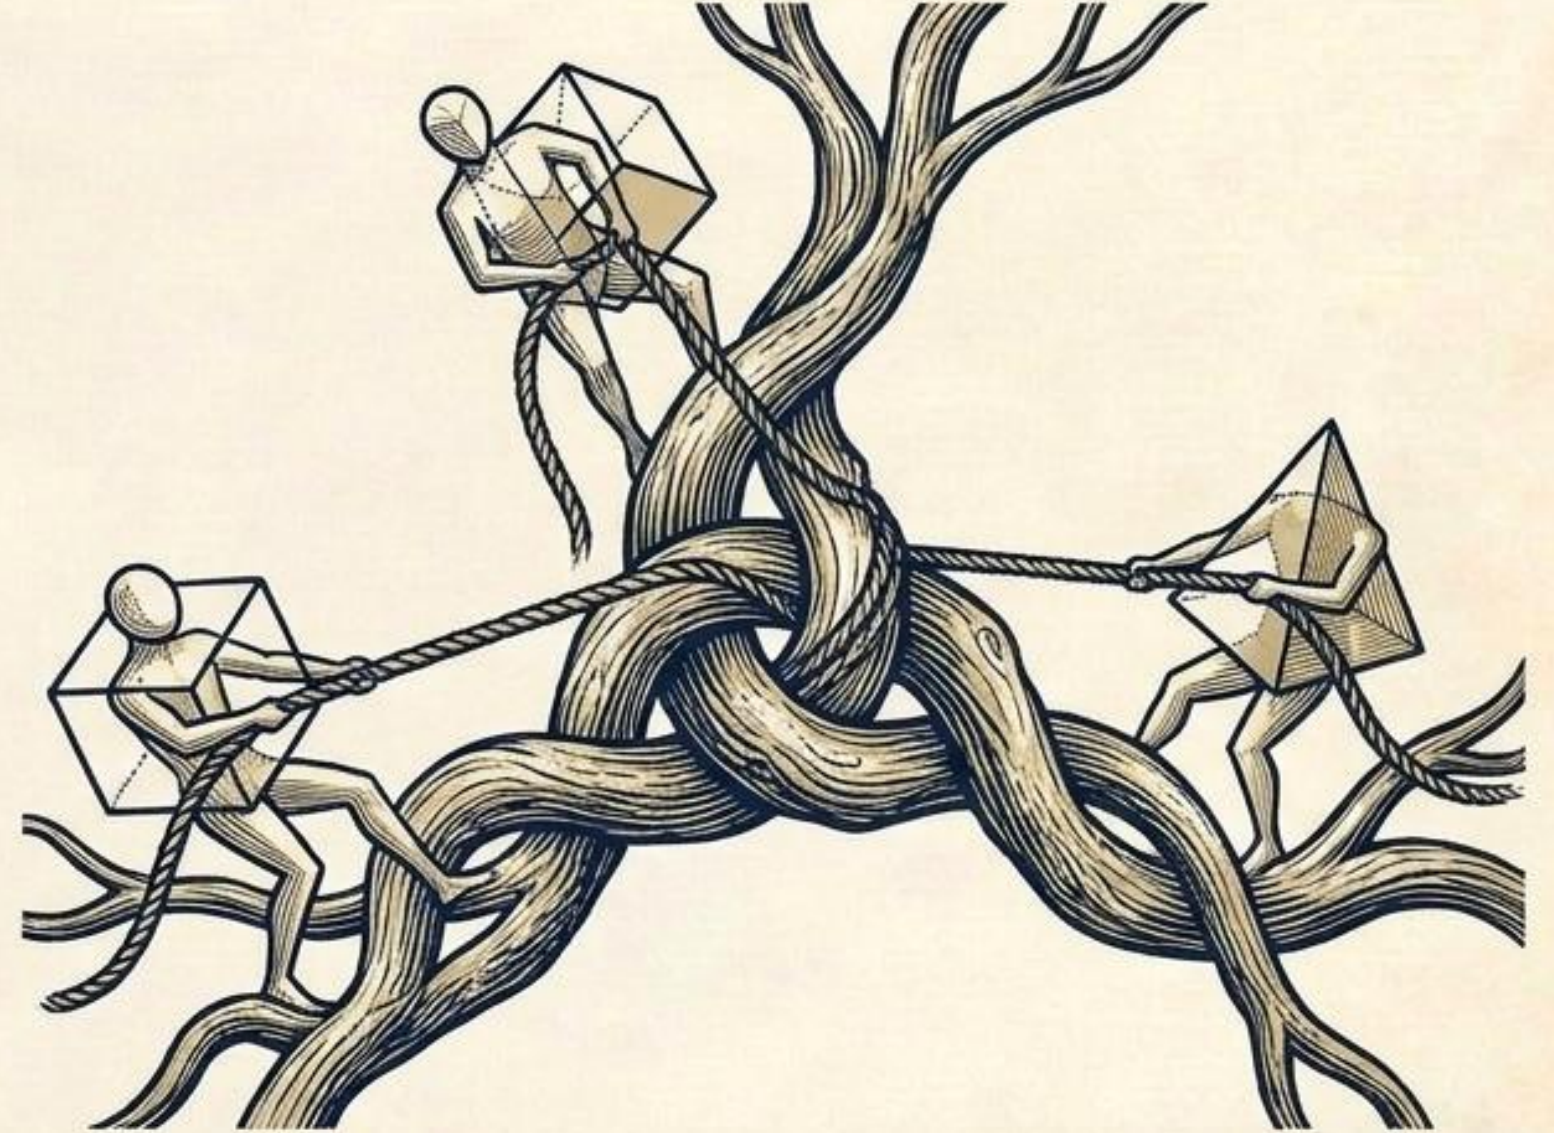

Mind is the flexible reality that creatures and Creators alike can manipulate. It is the vital link connecting matter and spirit, providing the ultimate cosmic arena of creature choice.

The Architecture of Growth: Trinities & Triunities

The Trinity (Organic Whole)

Undivided, organic, and indivisible. Total reality functioning on all levels, much like the solid trunk that unifies the full reality of a tree.

The Triunity (Functional Action)

Summative, purposeful action. The existential threesomes directly concerned with the cosmic appearance and growth of experiential Deities.

Reflectivity: The Cosmic Mirror

Definition: Finite omniscience. The unique power to see, hear, sense, and know all things simultaneously as they transpire across the superuniverses.

1. **Event:** Occurs on a local universe level.

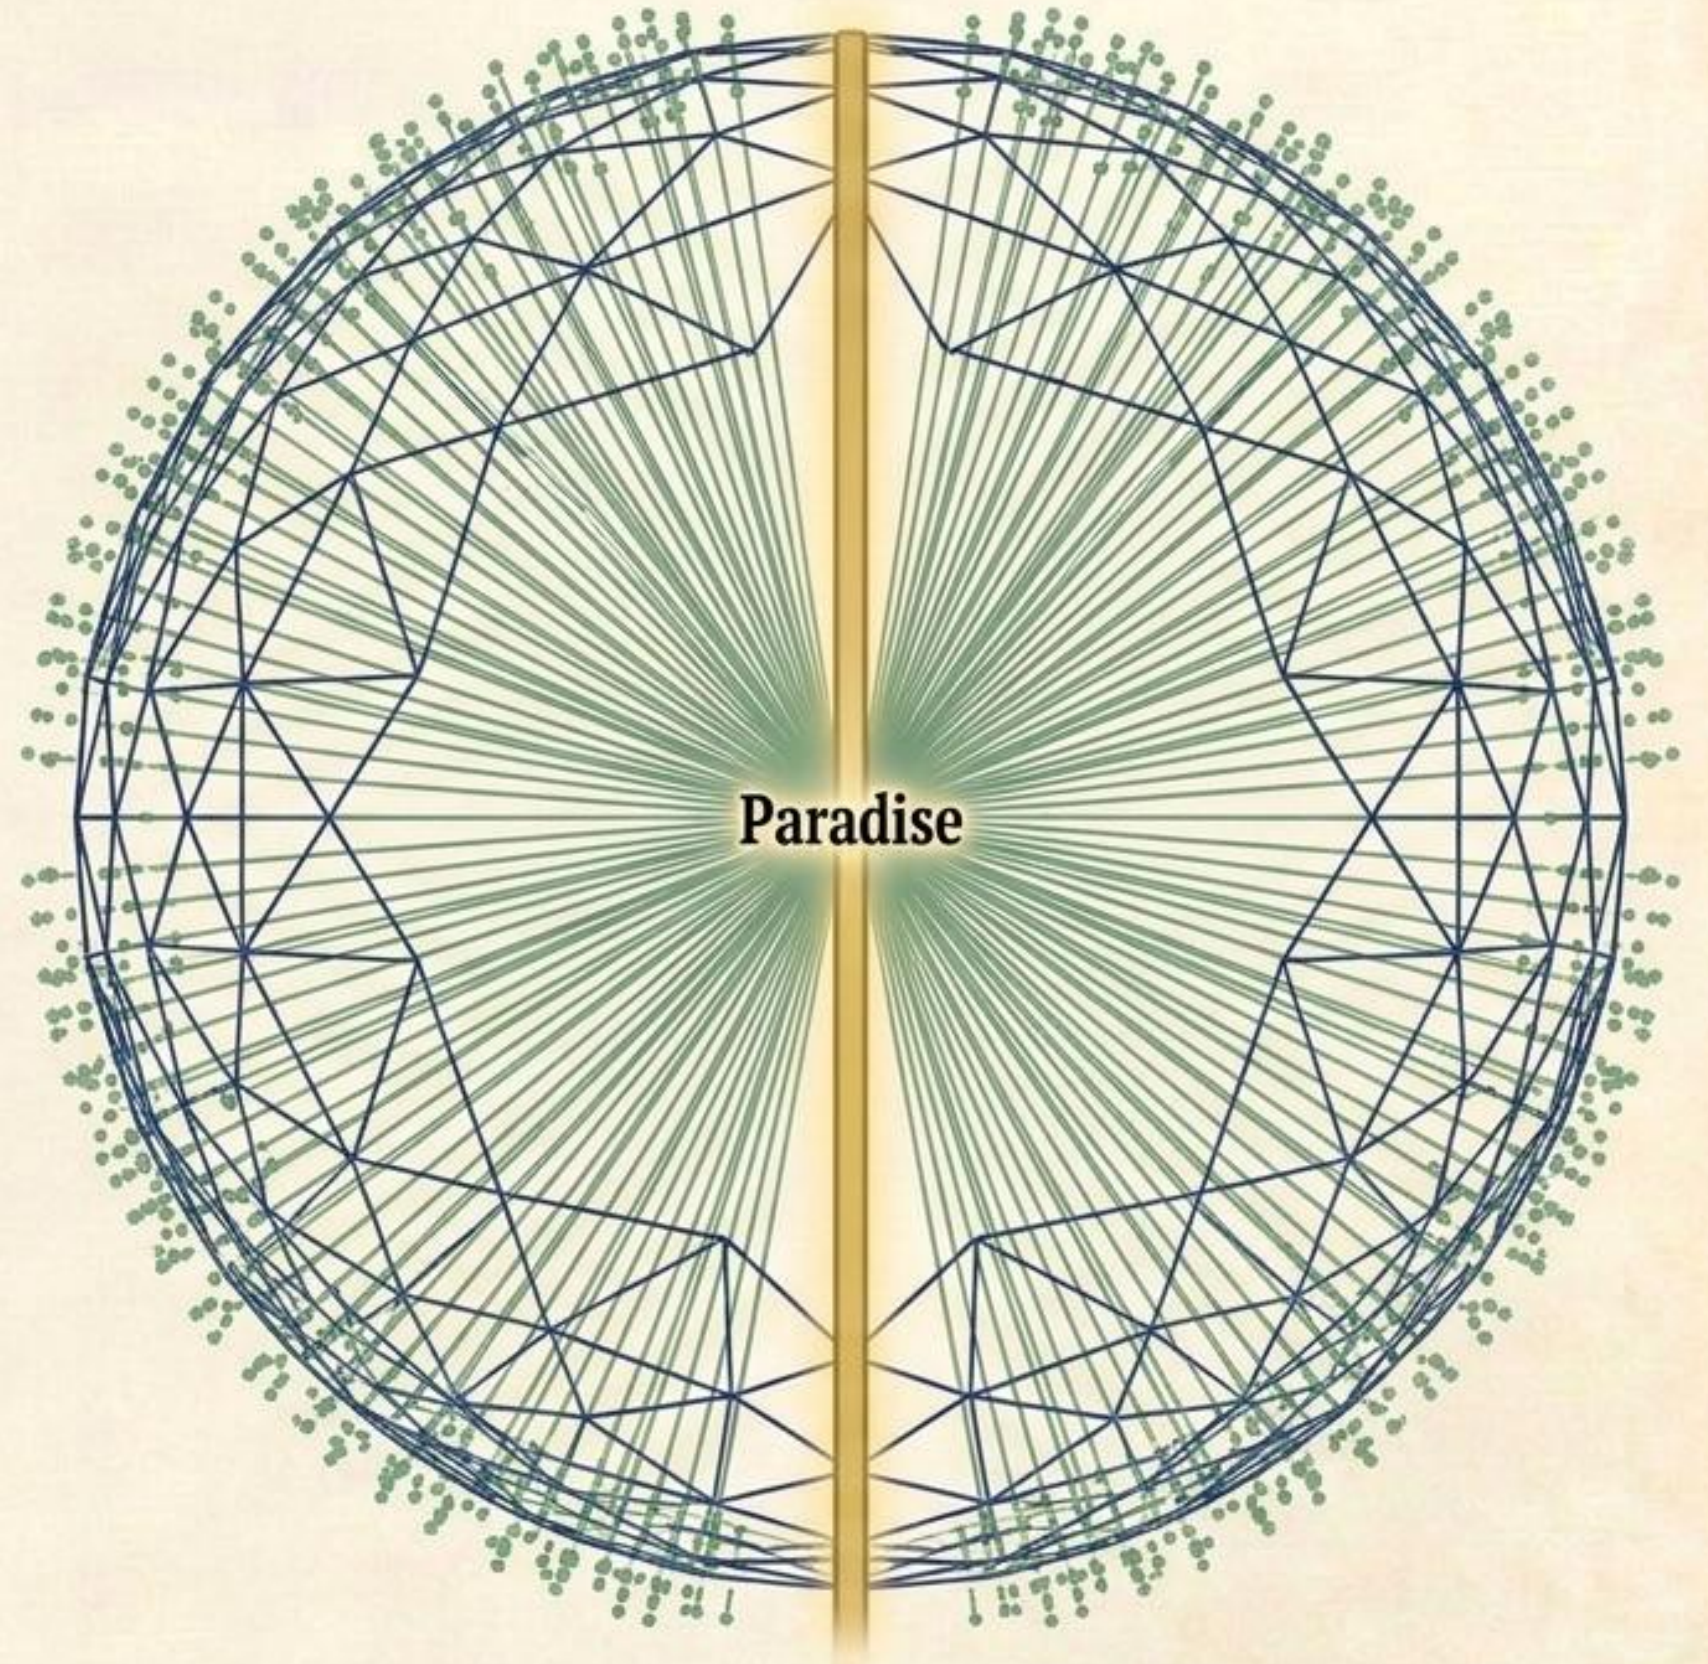

2. **Reflection:** Instantly reflected to superuniverse headquarters.

3. **Focalization:** Concentrated in Paradise.

Result: A perfect divine memory where the past is literally immortal, preserving finite experiences forever.

Supremacy in Action: The Phenomenon of Overcontrol

Supremacy is not static; it is a dual movement. The evolutionary climb of humans inward is matched by the outward expansion of universe administration, blending righteousness with mercy for the children of time.

The spiritualizing ascent of creature personalities to Paradise.

The justice and mercy of Supremacy modifying and stabilizing the finite universes.

The Evolution of Revelation on Urantia

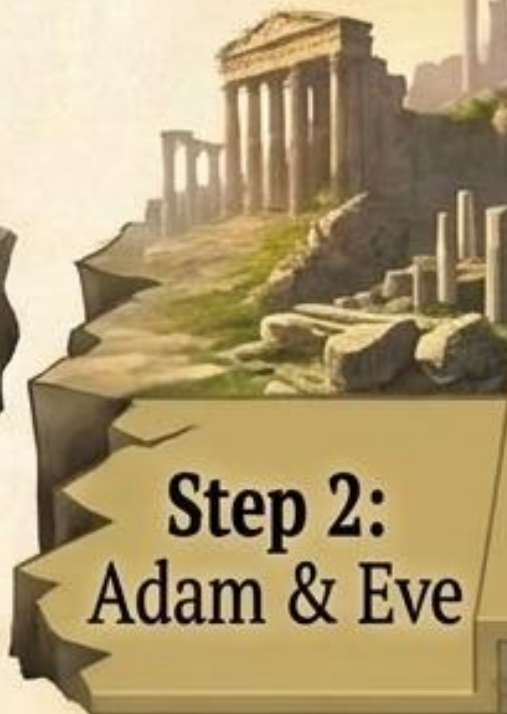

“The religion of Jesus... demands living and spiritual experience to achieve the idealism of the supreme.”

— Rodan of Alexandria

(3rd Epochal)

Focus: Expanding the revelation to the Fatherhood of God, Love, Service, and Sonship.

Step 4: Jesus

Step 5: The Urantia Book
(5th Epochal)

Focus: Expanding to Cosmic Citizenship and the realization of the Supreme.

Cosmic Socialization: The Human Engine

No man lives by himself. Imptuser in evil.

No man lives by himself. Only sin and evil are **isolated** and gravity-resisting. Human relationships are the literal raw materials that feed the Supreme Being.

1. Interpersonal Relationships

The spiritualization of fraternity.

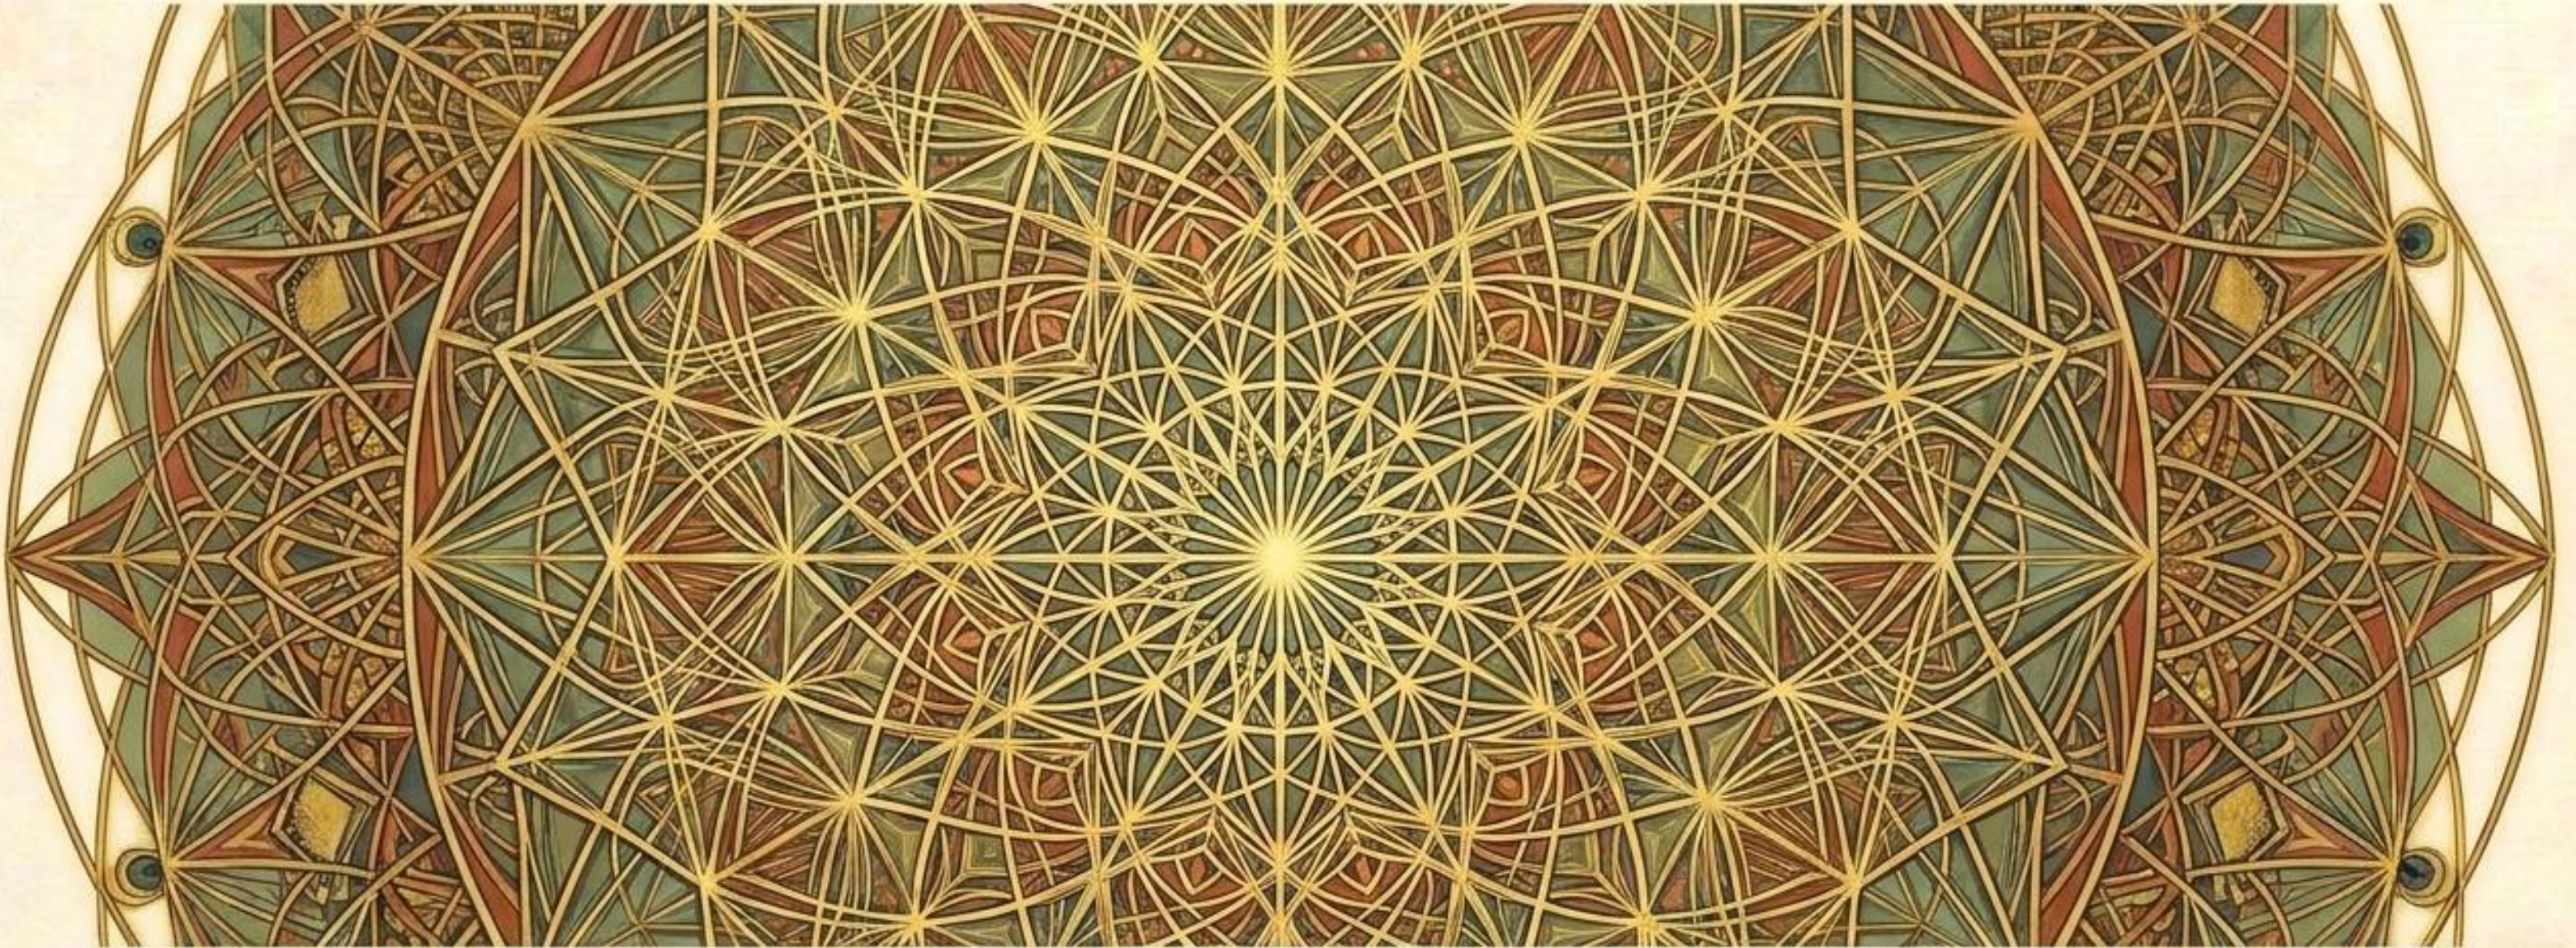

2. Moral Choices

The creation of supreme values through everyday decisions.

3. Dynamic Service

Reorganizing the soul for loyalty to others.

Destination: Light and Life

The Current Age:
Fragmented, evolving,
and experiential.

Maximum Maturity:
The superuniverses settle into
the stage of Light and Life.

Final Unification:
The Supreme Being perfectly cumulates
all aspects of its essence, becoming a fully
contactable Person to finite beings.

The Foundation of Cosmic Morality

“It is out of the very reality of the Supreme that the Adjuster, with the consent of the human will, weaves the patterns of the eternal nature of an ascending son of God.”

The temporal relation of humans to the Supreme is a reciprocal loop. We draw on the Supreme to build our character, and we deliver our spiritual values back to ensure its eternal evolution.
